MAKE IT
YOUR OWN

It's not just any bathroom, it's your bathroom. You select the tiles that reflect your style. You refuse to compromise in the selection of the tap for your washbasin. And here you will find just the right actuator plate for the WC to give your bathroom the crowning touch and pamper you with comfort functions. Because Geberit combines visual elegance with innovative functions.

WHY NOT TRY OUT YOUR OWN DESIGNS?

We have included actual-size illustrations of various actuator plates in the brochure for you. Fold back the left-hand side of the brochure, hold the design up to the wall and let your imagination run wild! Use these actual-size samples to select the actuator plate that appeals to you.

GEBERIT
DESIGN FAMILY

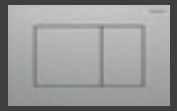

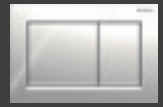

Seamless design. Toilet and urinal flush control actuation featuring a coordinated design: the result is a single design thread running through the whole bathroom. The flush actuations for urinals, which match the actuator plates for toilets, can either be actuated by hand (pneumatic) or via touchless technology (electronic, by means of infrared detection).

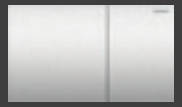

→ Geberit Selnova S with lid urinal → Geberit urinal flush control type 10 round, plate and button: white, design rings: gloss chrome-plated → Geberit Selnova wall-hung WC, TurboFlush flush technology → Geberit Sigma20 round, plate and button: white, design rings: gloss chrome-plated

GEBERIT CISTERNS SIGMA AND OMEGA

FOR **ANY APPLICATION**

So that everything matches: used in combination with the matching concealed cistern, Geberit actuator plates in the Sigma range cover a wide variety of applications and comfort functions. The Geberit flushing system Omega offers great flexibility and particularly small actuator plates. Both flushing systems offer tool-free final installation and guaranteed spare parts availability for 50 years.

You therefore have a wide selection of both Geberit actuator plates and reliable Geberit installation elements for installation behind the wall. And Geberit actuator plates bear the name of the suitable cistern so that you can be certain that everything will match.

Geberit Sigma concealed cistern

- Construction height 112 cm
- Front actuation
- Barrier-free and height-ad justable models available
- Also available as a corner element
- Odour extraction (recirculating air / exhaust air)
- Suitable for Geberit remote flush actuation

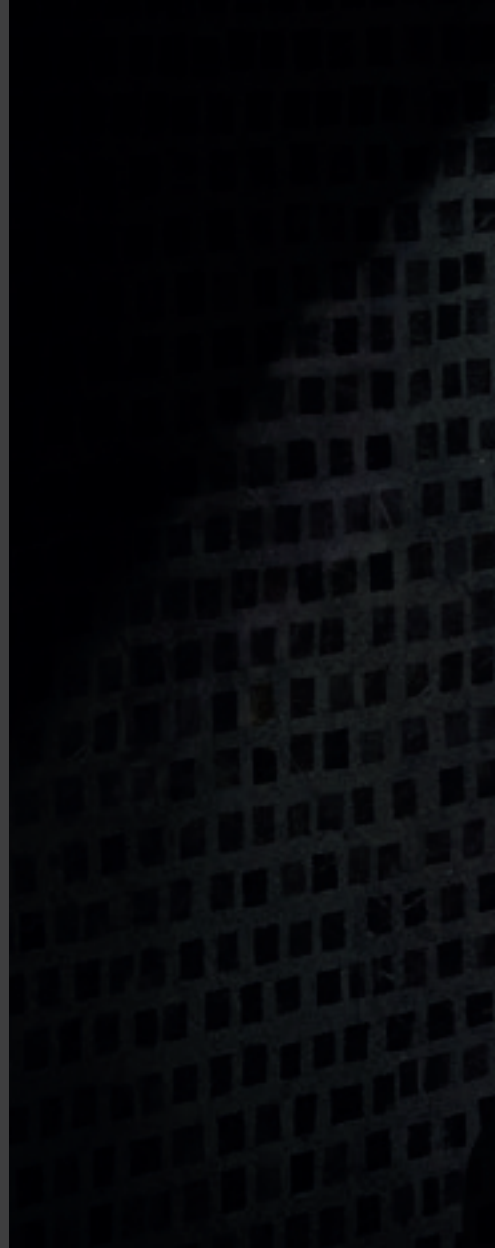

Geberit Omega concealed cistern

- Completely flexible with construction heights of 112 cm, 98 cm and 82 cm
- Front actuation
- Additional top actuation with construction heights 82 cm and 98 cm
- Particularly small actuator plates
- Suitable for Geberit remote flush actuation

CHOICE IS **IMPORTANT**

Intelligent functions from Geberit. If you can start your toilet flush without touching it, if elegant colour effects add atmospheric moments to the time you spend in your bathroom, or if unpleasant smells are efficiently extracted even before anyone notices them, then this means your plumber has installed state-of-the-art Geberit sanitaryconvenience in your new bathroom. And because durability and reliability are as much a part of Geberit as good design, you will enjoy your selection for years to come.

GEBERIT REMOTE FLUSH ACTUATIONS

MORE CONVENIENT **BY FAR**

→

QUITE DISCREET IN FACT

Available as they are in a variety of colours and product materials, the Geberit cover plates open up new design opportunities. A tile-bearing version is available for a particularly discreet appearance.

The remote control for effortless flushing can also be installed on another place, for example next to the WC.

The optimal solution. Regardless of the construction situation, using a remote flush actuation can be a the right choice. For instance, in order to locate the flush actuation at a different location, if the design for the WC flush control calls for small but elegant, or if using a Geberit Omega concealed cistern with low construction height causes forceful contact between the WC lid and the front actuation. For such cases, Geberit offers various remote flush actuations with pneumatic force transmission, which can be placed anywhere within a 1.70 m radius of the concealed cistern.

TOUCHED A THOUSAND TIMES

The pneumatics of the Geberit remote flush actuations type 01 and type 10 have been tested for years of stress. The technology is based on air pressure (not on electrical current).

FRESH AIR
FOR EVERYONE

Insert for cistern stick: The optional insert is suitable for most Geberit actuator plates in the Sigma range and can even be installed by a plumber at a later date. It guides the in-cistern stick down a chute to a fixed position below the surface of the water in the cistern. Once there, the stick dissolves slowly and ensures hygiene and cleanliness in every flush throughout the entire WC ceramic appliance, as well as providing a fresh fragrance.

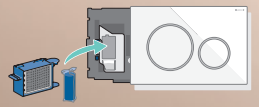

1 It doesn't get any simpler than this: pull the actuator plate aside. **2** Place the in-cistern stick into the insert behind the plate. **3** Close the plate and enjoy the freshness with every flush.

Unpleasant odours in the toilet are a thing of the past: The Geberit DuoFresh module removes the bad air directly from the WC ceramic appliance, purifies it using a ceramic honeycomb filter and then returns it to the room. Thanks to a proximity sensor, the odour extraction always switches on automatically as soon as someone sits down on the toilet. Benefit from additional comfort thanks to an LED orientation light and the insert for in-cistern sticks. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any actuator plate from the Sigma range.

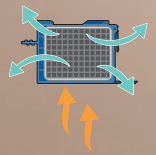

Unpleasant odours are removed right at the source.

ACCESSIBLE

The ceramic comb filter and insert for in-cistern sticks are within easy reach located behind the actuator plate.

EFFICIENT AND QUIET

The ceramic comb filter purifies the air thoroughly. The quiet fan conveys the cleaned air back into the room.

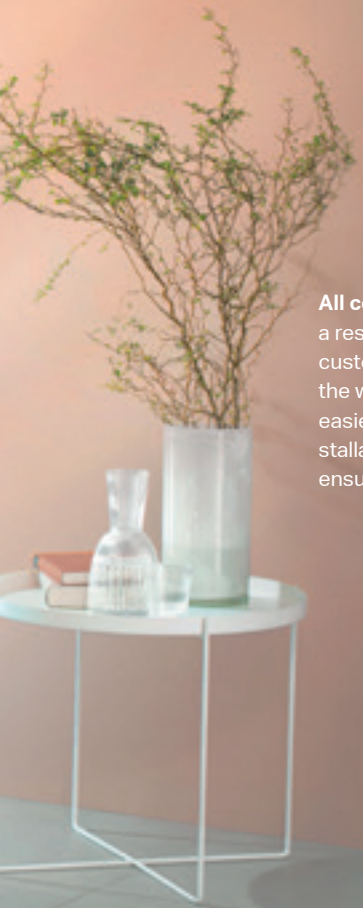

LED ORIENTATION LIGHT

An additional benefit offers a built-in LED orientation light. Just below the actuator plate a soft glow will guide you the way to the WC – simply perfect.

TECHNOLOGY AND DESIGN **PERFECTLY MATCHED**

All components in the Geberit WC system match perfectly. As a result, they offer convincing added value in the system. End customers appreciate the outstanding flush performance and the whisper-quiet technology, which make the toilet quieter and easier to clean. Plumbers are impressed by easy and flexible installation. The high quality and exceptional warranty services ensure that you can enjoy your new WC for a long time to come.

The Geberit WC system: Five system benefits

- EASY INSTALLATION
- OUTSTANDING FLUSH PERFORMANCE
- LOW-NOISE FLUSHING SYSTEM
- COMPREHENSIVE DESIGN OPTIONS
- PROVEN QUALITY AND LONG-TERM WARRANTIES

The Geberit WC system. Rely on unique technology combined with a modern look and clever features.

↑

OUTSTANDING FLUSH PERFORMANCE

The asymmetrically designed, completely rimless inner bowl guides the water through the sanitary ceramic with exceptional flushing-out performance. The result is high performance and easier cleaning.

←

EASY INSTALLATION

The installation technology of the Duofix concealed cisterns from Geberit is characterised by a number of well thought-out details. Short working times and flexible customisation options speed up and simplify WC installation in any bathroom.

→

LOW-NOISE FLUSHING SYSTEM

The targeted water guide of the TurboFlush flushing technology and hydraulically optimised flushing technology behind the wall significantly reduce water noise. This brings more peace and quiet into the bathroom.

COMPREHENSIVE DESIGN OPTIONS

The Geberit WC system includes a large selection of high-quality actuation plates in many materials, colours and surfaces and in round and square shapes.

→

PROVEN QUALITY AND LONG-TERM WARRANTIES

All components of the Geberit WC system are carefully developed and extensively tested in our own laboratories. Above-average warranty services provide long-term security.

TODAY'S TOILETS ARE MOVING WITH THE TIMES

Electrical connections now come as standard. After all, you expect your bathroom to reflect your changing needs as well as the lifestyle trends that the future is likely to bring. In Geberit WC installation elements, you'll find everything completely prepared for the future – so it can accommodate any changes you want to make in the future, like retrofitting a Geberit AquaClean shower toilet, a convenient odour extraction unit or installing the coloured LED strips that come with the touchless Geberit actuator plate Sigma80.

1 Geberit DuoFresh module with integrated orientation light. Suitable for several actuator plates of the Sigma series. **2** Touchless Geberit actuator plate Sigma80, glass reflective. **3** The Geberit AquaClean Mera shower toilet with outstanding design and numerous comfort features.
